COVID-19 DATA UPDATE

Although many people in the Barren River District have been vaccinated, the majority of the population remains unvaccinated. COVID-19 vaccines are safe and effective at preventing severe illness and death. Vaccination also reduces the risk of people spreading the virus. The COVID-19 vaccine teaches your body how to fight off the virus in case you become infected. If you are vaccinated and you do catch the virus, you are much less likely to be hospitalized.

*Percentages of total vaccinated population decrease caused by data errors being corrected in the state system.

County	Total Vaccinated Population
Barren	50.08%
Butler	47.32%
Edmonson	37.30%
Hart	38.88%
Logan	56.05%

We strongly encourage everyone who is eligible to get the vaccine do so as soon as possible. The COVID-19 vaccine is available at multiple locations in the area. To find a vaccine near you, visit <https://www.vaccines.gov/search/>. If you are 18 years of age or older and would like schedule vaccination with the Barren River District Health Department, call your local health department and press option 1.
